[ARRL June VHF Contest this weekend](#)

For amateurs in the US and Canada (and their possessions) to work as many amateur stations in as many different 2 degrees x 1 degree Maidenhead grid squares as possible using authorized frequencies above 50 MHz.

[ARRL](#)

[Hey, which coaxial cable should I use?](#)

We'll focus on the most popular cables, with 50 ohm impedance to match the output impedance of our transceivers.

[Ham Radio School](#)

[Is DMR the digital voice winner in Amateur Radio?](#)

It was standing room only at the DMR Forum at Dayton this year.

[KB6NU.com](#)

[AM: The original speech transmission mode](#)

AM radio has been in slow decline for decades, indeed it's disappearing completely in some European countries.

[Hack A Day](#)

[Deceptive Sun](#)

A quick glance at Sunday's sun reveals a spotless environment, something we will likely be seeing more often in the years to come.

[Digital Video Transmission using LimeSDR and GNU Radio](#)

One of the reasons why I find the LimeSDR interesting is that it can transmit high data rates over a wide frequency spectrum. It covers many ham radio bands where we can legally transmit wide signals using high power.

Mark's battle with RFI & EMI

Everyone involved in radio comms will suffer this insane problem at some stage of their hobby career. Interference from cheap and nasty technology destroying listening pleasure!

[Delta Alfa](#)

Bouvet... so far away...

Why isn't the Intrepid DX Group announcing plans to activate Bouvet? It all comes down to money. Lots of money is needed.

[N6PSE](#)

Decoding NOAA weather satellite telemetry beacons

The telemetry not only contains data such as the current spacecraft time, day and ID, but also contains scientific data from on-board instruments.
